

TOP SECRET

26 February 1951

MEMORANDUM FOR: The Director

SUBJECT : Psychological Strategy Board

1. Included in the draft of our proposed Presidential Directive to establish a National Psychological Strategy Board is a requirement that this Agency shall provide such funds, space, and other administrative services necessary for the pay and support of this Board and its staff as the National Security Council may direct.
2. This Agency provides similar support, except space, for the staff of the National Security Council. However, we currently have neither funds nor space to support a Psychological Strategy Board.
3. Should we be officially directed to assume this administrative responsibility, it would be necessary that additional funds and considerable additional space be made available to the Agency.

MURRAY MCCONNEL
Deputy Director
(Administration)
